Thermal Insulation For Use In Roofs, Walls & Floors

KEY FEATURES

- ✓ SF60 is from SuperFOIL's multifoil range, offering a 3 in 1 design - high-performance insulation, vapour control layer and a radiant barrier in 1 product.
- ✓ SuperFOIL also acts as a radiant barrier to reflect excessive heat gain during the summer months as well as insulating throughout the year.
- ✓ SF60, like all our multifoil products, has undergone rigorous testing to ensure that they meet the latest building regulations standards.
- ✓ SuperFOIL's clever design allows easier fitting without any specialist tools and minimal wastage, unlike many traditional insulation types.
- ✓ SF60 can be installed in combination with other insulation types.
- ✓ SF60 is ideal for use in roofs, walls and floor structures in new builds & retrofits.
- ✓ SuperFOIL SF60 is made from up to 40% recycled materials and is fully recyclable at the end of its 50+ year lifespan.

PRODUCT DIMENSIONS

Thickness	100mm
Length (Various)	8m
Width (Various)	1.5m
Weight (Various)	17.75kg

THERMAL PERFORMANCE

Core	3.58 R Value
Roof (inc. air spaces)	4.48 R Value
Wall (inc. air spaces)	4.91 R Value
Floor (inc. air spaces)	6.24 R Value
Emittance	0.05

FIRE PERFORMANCE

Reaction to Fire (Euroclass)	Class F
